

# Waste Management Solutions

---

WE ARE A  
LEADING TOTAL  
WASTE  
MANAGEMENT  
SOLUTION  
PROVIDER IN  
THE UK.

- Sigma Waste Services are North-West based waste management company providing local and national waste collection, recycling and disposal services. We massively prioritise customer service.
- With over 10 years experience, you can be confident that you will receive the best service around. From our head office in Warrington we offer waste management solutions nationally.
- We also offer tailored total waste management solutions to our larger manufacturing, leisure, education, retail and healthcare sector customers. As well as trade waste collection, we also offer secure shredding services, hazardous/clinical waste disposal

Sigma are currently in partnership with a variety of companies as seen.

We offer Energy, Waste and Water to these huge brands

# RECYCLING PLASTIC

-Sigma offers competitive rebates for plastics as well as supplying a polythene collection service, front end loader (FEL), wheelie bins, compactors and balers depending on your business needs.

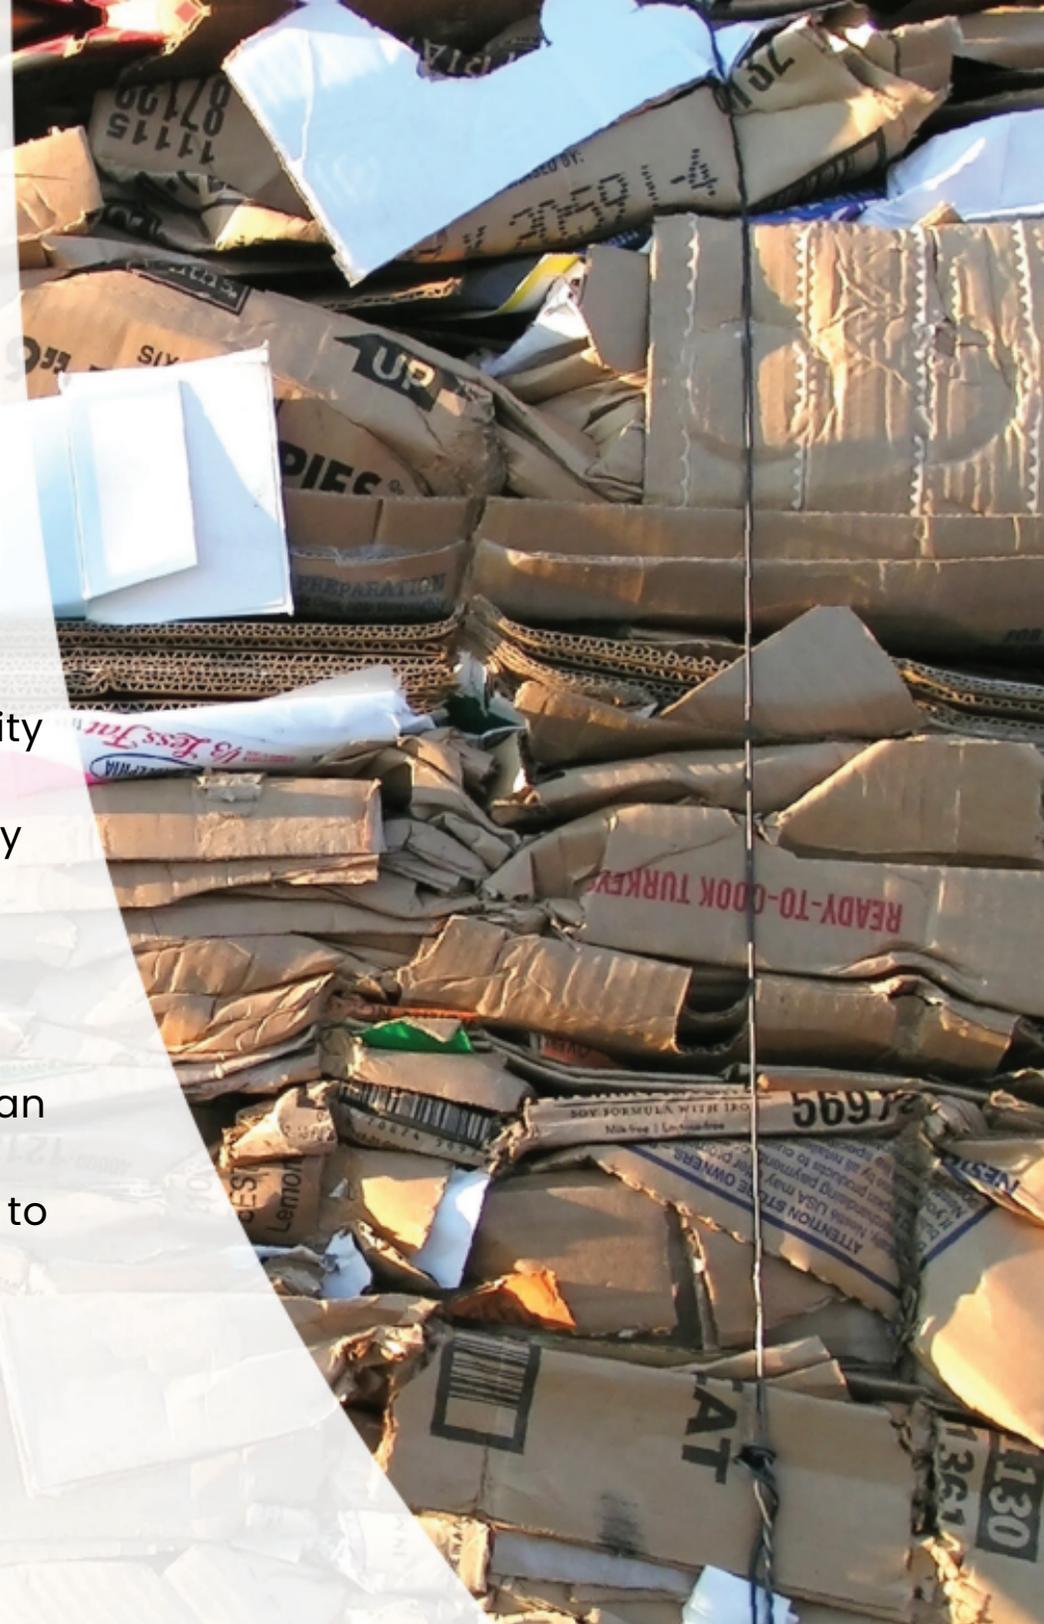

-No more worrying about lengthy researching, administration or extensive expenditure Just a friendly discussion with our experienced professionals and a monthly on-site visit from Sigma.

-Plastic is a tough material to recycle and can have devastating effects if it is disposed of incorrectly. At Sigma, we specialise in the correct disposal equipment and techniques to make the environment safer and more ecologically friendly with the most effective plastic recycling and waste disposal solutions

# WE COLLECT & RECYCLE PAPER & CARDBOARD

- Recycling your cardboard and paper is not just a positive step in the direction of improving the sustainability of yourself or your business, but it is also necessary.
- Government legislation now places a responsibility on many organisations to recycle their packaging waste effectively and to provide evidence that they have done so.
- Most people believe they know how to properly recycle paper and cardboard, but in many cases this can be incorrect information. The difference can be slim but it is also worthwhile to know your facts and be fully aware of best practice when it comes to large volumes of recycling different materials together.

# FOOD WASTE COLLECTION

---

## • FOOD WASTE COLLECTION, DISPOSAL & RECYCLING SOLUTIONS

- Most food waste ends up in landfill sites, where it then rots and releases methane as a bi-product.
- All of our total waste solutions are to the highest standard and encompasses our zero waste to landfill solutions. This means we work to reduce any negative environmental impacts that may occur from ineffective recycling.
- Depending on the type of food waste or food surplus and volume you produce, resourceful solutions are always presented to your business. Sigma will work around your business' needs and personal budget to deliver the best solution to suit your circumstances

# ALL OF OUR TOTAL WASTE SOLUTIONS ARE TO THE HIGHEST STANDARD AND ENCOMPASSES OUR ZERO WASTE TO LANDFILL SOLUTIONS

---

SIGMA RECYCLES NUMEROUS WASTE STREAMS, INCLUDING CARDBOARD, PAPER, PLASTIC, POLYSTYRENE, GENERAL WASTE, METALS, CONFIDENTIAL WASTE / SECURE SHREDDING, WEEE, FOOD / FOOD SURPLUS, WOOD, LIQUIDS, SOLVENTS, CLINICAL WASTE, SLUDGE'S AND HAZARDOUS WASTE

# GENERAL WASTE COLLECTION & DISPOSAL

---

Sigma go over and beyond the call of duty to ensure that as much of your waste is diverted from landfill.

Unrecoverable waste is processed into RDF (Refuse Derived Fuel) or SDF (Solid Derived Fuel) and processed as Energy from Waste (EFW) to be converted into electricity.

Sigma will help you no matter the size of the task, large or small, with a host of solutions we will source the most sustainable disposal method.

# HAZARDOUS WASTE

---

-Preparing hazardous waste by packaging, labeling and ensuring that the paperwork is correct can be deemed as an arduous task. With Sigma, we are TWM (Total Waste Management) experts. This means that we can take these burdens away from you.

-We have on site engineers ready to assess your waste processes to ensure your waste is being efficiently disposed of.

-We ensure that a chemist is available (where and when required) to assist you and ensure that your hazardous liquid and/or solid waste is safe for transportation.

-Everything that we do is with full, expert knowledge with you at the forefront of our minds

# CLINICAL WASTE MANAGEMENT

- We provide a comprehensive service to nursing and residential homes, hospitals, dentists, vets, child day care nurseries, research facilities, medical centres, pubs and hotels.
- Sigma will provide a safe and secure collection and disposal route for colle materials and waste such as incontinence waste, infectious waste, pharmaceutical, sharps waste, sanitary waste and nappy wast

# CONTAINER TYPE

- WHEELIE BINS- (EURO CONTAINERS):
- 240ltr, 360ltr, 660ltr, 1100ltr
